POLITICS IN ARMY

Paymaster Ray Sent to Chicago on Request From White House

Washington, March 9.—Major General Carter, acting chief of staff of the army, was a witness today before the house committee investigating the political activity of Paymaster B. B. Ray. General Carter said it was at the request of the White House that Major Ray recently was transferred from Atlanta to Chicago.

"I assumed the order came from the president," said General Carter. "I received it from Secretary Hilgert. I told him that I knew the history of the Ray case and thought there should be some reason given for the transfer, as I expected there would be criticism. He told me that Major Ray would be sent to Chicago so that Mrs. Ray could have the attention of a surgeon there. He also said that Major Ray would be instructed not to engage in any outside activity."

Major Ray recently became eligible for promotion to lieutenant colonel, but his nomination has not been sent to the senate by the president. Major Carter said that the army officer would draw the pay and emoluments of the higher rank from the day he became eligible, regardless of the time his nomination was sent in. The promotion, he said, was automatic.

PAST NOBLE GRANDS.

Mrs. Frank Sawyer entertained the Past Noble Grands at her home last Thursday in a most pleasing manner. The home was beautifully decorated in pink and white carnations, those colors prevailing throughout the rooms. High five was played, after which a delicious three-course supper was served. Instrumental music was furnished by Miss Goldie Thorne, after which jolly repartee ended a delightful afternoon and the hostess was bidden good-bye at a late hour.

In spite of the inclement weather, fourteen members were present. Those winning prizes were: Mrs. Randall, Koons and Holtzgren.

Those present were Mrs. H. C. Vandeleigh, C. Bogart, Mabel Moon, Mrs. Beck, Emma Chad, Elizabeth Turner, Mrs. Holtzgren, Addie Baker, Mrs. Koons, Randall, Monahan, Myers, Matthews, Sawyer.

The hostess was assisted by Mrs. George Sawyer, Mrs. Thorne and Mrs. Wadman.

CHILDREN'S AID SOCIETY.

The Children's Aid held their regular monthly meeting at the home of Mrs. P. S. Robins at her home on Twenty-seventh street. It being the last meeting before the annual election of officers, unfinished business was completed and a review of the year's work discussed. Plans for a public entertainment to be given in the near future were brought before the meeting.

The annual election of officers will be held at the next meeting which will occur on the first Friday in April at the home of Mrs. E. A. Littlefield.

PARSONS-HOFFMAN.

Miss Freda Parsons, daughter of Mrs. O. Parsons of Montello, well known to hundreds as the gracious and efficient head of Wright's cloak and suit department, where she served for several years, left Wednesday for California and was united in marriage, Friday, at Sacramento, to H. C. Hoffman of Alameda, California.

Miss Parsons left a host of warm friends in Ogden and surrounding country who offer congratulations and best wishes for her future happiness and prosperity.

LUNCHEON.

Mrs. A. E. Weatherby gave the first of a series of luncheons to her lady friends at the Weatherby home, 582 Twenty-sixth street yesterday afternoon.

TARIFF IS THE ISSUE

Champ Clark Ready to Make a Campaign on Taft's Vetoes

Frankfort, Ky., March 9.—Champ Clark, speaker of the national house of representatives, a guest in the capital of his native state, today returned to the Kentucky legislature the record made by the Democratic party in congress.

"We have absolutely kept faith with the people," he said. "We have redeemed, or are in process of redeeming, every promise we made in order to win the election."

Declaring that the tariff and the question of trust control will overshadow all other issues of the coming presidential campaign, Speaker Clark said:

"It has been given out in a manner that needs no further comment that President Taft proposes to veto any tariff bills that we pass. We welcome the issue. We do not believe it can be postponed, minimized or shunted out of the way."

The present tariff law raises about \$300,000,000 a year. It is estimated that it goes to Uncle Sam's coffers under the high protective tariff system, about \$5 goes into the pockets of the tariff barons. This being true, then the high protective tariff costs the people of this country a billion and a half yearly. It is a gross outrage and cruelty to the taxpayers."

Taking up the proposition of party and popular progressives, Mr. Clark declared the only way to achieve progress is at the hands of the Democrats. He said progressives in the Republican party would enact remedial legislation if they could, but that "hand-patters are in the majority in that party and it looks as if they would continue to dominate it indefinitely."

Mr. Clark said that on the strength of this condition, he proposed to ask support of Democratic candidates this year.

Mr. Clark declares the Republicans undoubtedly would attempt to bring leading issues and "lure us away from the tariff and trust questions because they realize that on these issues we will defeat them most decisively." The battle of tariff reform and the proposition of control of trusts, he said, must be taken to a finish.

"And in these questions," he said, "we are undoubtedly in the right."

LIBEL CASE IS DISMISSED BY JUDGE

In the district court this morning Judge Harris dismissed the case of the States against George Wilson, charged with criminal libel, on the grounds that the information did not state facts sufficient to constitute a crime.

In passing on the question of the sufficiency of the allegations of the information, the court stated that the libelous article complained of did not sufficiently express or imply that the parties interested in the Four-State Fair association had wrongfully appropriated funds and that the innuendo was not strong enough to warrant a trial on the charge.

The court stated, however, that he would entertain another information on the part of the state and would hold the defendant under bond until such time as the matter could be brought to issue.

The district attorney stated that he would not file another information but would take exceptions to the ruling of the court. Thereupon the case was dismissed and the jury discharged.

BELNAP CASE SUDDENLY ENDED

On motion of the city attorney the case of Ogden against Hyrum Belnap, charged with failure to exhibit a merchant's license, has been dismissed without prejudice.

The complaint was filed in the municipal court a number of months ago and a change of venue to the court of Justice Reese of North Ogden was afterwards granted. The defendant insisted on a hearing and the city attorney responded by dismissing the action.

WHO OWNS THE POLE

Effective Occupancy Is Necessary to Give Title to Land

New York, March 9.—The question of whether Norway owns the territory surrounding the South Pole, which has just been discovered by Captain Roald Amundsen, already is being discussed by authorities on international law covering the ownership of Arctic and Antarctic lands. Ever since 1778, when Captain Cook's expedition planted a flag in the Antarctic, the explorers of various nations have carried the flags of their countries to various points approaching the South Pole. It is generally believed the land in the Antarctic will be regarded much in the same way as Spitzbergen archipelago, which is inhabited by men of various nations, and is now regarded as a joint possession of all mankind.

John Bassett Moore, professor of international law at Columbia University, points out that leading authorities have taken the position that discovery alone does not suffice to give good title to an unoccupied land and that the customs of nations for centuries have crystallized into a part of the law of nations that in order to perfect the right given by discovery, it must be followed by general occupancy.

Professor Moore says that the task of effective occupancy of the territory surrounding the South Pole probably would prove more difficult than its discovery and that it was extremely unlikely that the question of ownership ever would be brought up to the joint commission on arbitration.

PRESIDENT IN CHICAGO

Taft to Make Important Campaign Speech This Evening

Chicago, March 9.—President Taft arrived here at 7:40 o'clock this morning and was greeted by a crowd of several hundred at the railway station.

Escorted by a reception committee he went directly to a downtown hotel for breakfast.

While at breakfast Mr. Taft received several visitors. Among these were Governor Charles S. Deneen, David R. Forgan, president of the Taft club, Roy O. West, chairman of the Republican state central committee and Postmaster Daniel Campbell.

After breakfast the president looked out from the hotel windows, and as it was a bright day, said he was prepared to have "a good time" while in Chicago.

The program included a reception at the Taft headquarters at noon, luncheon at the Union League club, an address to Jewish residents at a West Side theater and a visit to the Chicago Press club.

His most important appointment is for this evening at the banquet of the Swedish-American Republican league, commemorating the fiftieth anniversary of the battle of the Monitor and Merrimack. Here the president is expected to make an important campaign speech.

A reception will precede the banquet.

TO REPLY TO TAFT

Roosevelt Will Put on Fighting Clothes—Talks on Primaries

Oyster Bay, March 9.—President Taft's speech at Toledo yesterday probably will draw an extended reply from Theodore Roosevelt.

After reading the speech today, Mr. Roosevelt declined to comment at present, remarking that any thing he might have to say on the subject would be said later, after he had time to consider the matter.

Mr. Roosevelt said that just now he was concerned chiefly with the subject of presidential preferential primaries. He expressed his thanks to Michigan and Illinois against the primaries.

"If the primaries are established," he said, "I feel sure that we will win. If they are not, we have a fighting chance."

The situation in Oklahoma, he said, illustrated the difficulty which confronted them. Although the convention in the Fourth congressional district instructed its delegates to the national convention for Taft, he said the people of the state voted 2 to 1 for Roosevelt in the primaries for the state convention. "I think," Mr. Roosevelt continued, "that if we had presidential preference primaries we would get 3 out of 4."

Mr. Roosevelt was greatly amused at a statement that Andrew Carnegie had advanced \$20,000 for the Roosevelt African expedition. He walked over to one of the high book shelves which lined the wall of his library and drew forth a thick volume, with a flourish of his arm. It was his book on African game trails.

"Ah, ha," he said. "They have discovered the secret document."

Turning to the appendix, he placed his finger on a paragraph in which he had expressed his thanks to Andrew Carnegie for giving "generous assistance to the African expedition."

"At last they've got me," he said, laughing.

Mr. Roosevelt said he expected no visitors today. The only thing on his day's program, he added was a long horseback ride.

GROWTH OF PACIFIC FISHING INDUSTRY.

Extraordinary preparations are now making for the expansion of the fishing industry on Puget sound next season, following upon several seasons of growth in that industry. A large number of new vessels are under construction, to take part both in the deep water and the off-shore fisheries, and nearly 100 fishermen from Gloucester and Boston will be out here next spring to enter permanently upon the fishing business.

Up to this time the salmon fisheries have dwarfed all others, but from this time forward other fisheries, notably halibut and cod, are likely to expand much faster than salmon fishing.

In the latter department, however, the past season has seen a considerable change in methods and one which promises to take even more next season and thereafter. Prior to the past two seasons the fish traps were the main reliance of the canner, although the gill-nets did a profitable business. For the past two years the boats used in the salmon fishery have steadily grown in size, and have gone further out in the strait after the fish. Last season there were more fish taken from the large boats out in the strait than were taken at the traps, reversing the old order of things.

Where the flat-bottom Columbia river boat was the type in use formerly, last season saw large-gleed power boats, carrying very much larger nets than in previous years—boats fit for any sea or any weather. Boats, moreover, which could be used in other fisheries after the salmon season was over.

The probabilities are strong that before many years are past the annual harvest from the sea off this Northern Pacific coast will excel in magnitude anything the Atlantic fisheries have shown in recent years.—Seattle Post-Intelligencer.

USE FOR ENGLISH SPARROWS.

(Boston Journal.)

Of all those who know the value of the common sparrow as a food, the Italians probably stand first. I'm told that in the north end the birds are trapped on the low roofs. The hungry ones cluster around handfuls of grain or peanuts, and a yank with a string, running through a window, claps over them a large improvised sieve.

As the birds masquerade on the hotel menu as red birds, there is no prejudice against them serious enough to cause the most fastidious to refuse. Recently there was a Pawtucket (R. I.) man arrested in a public square for trapping the sparrows, and he explained that he was getting them for the Boston hotel trade.

There are about 150,000 members of the four railway men's unions in England and there is a movement on foot to unite these organizations.

It comes but once a year, and they revel while it's here! —Paul West in St. Louis Globe-Democrat.

THE SHOPPERS.

See the Christmas shoppers shopping! See them round the counters hopping, Hardy stopping, Gaily popping.

Here and there and everywhere, Picking bargains up and dropping, Woolly lambs with ears a-flopping, Dolls exceedingly large and wropping, Toys that last and games that tear, See them rush, their foreheads mopping.

As they hurry on their shopping, Buying books for Tom and Willie, Buying things exceedingly silly, Things that no one has a use for, Things that father must "produce" for.

With their endless lists clutched tightly, So that they may purchase rightly— See them! Watch them, hopping, popping, Flipping, flopping, Never stopping, Till they're dropping.

And go homeward worn and weary, With a sorry sigh, "Oh, deary! I forgot to buy a present For my cousin's aunt—that's pleasant! And I fear I made a mistake In those gloves for Uncle Jake— Phew! a larger size he'll take! I'll be happy when it's through, For I'm tired out, aren't you?"

Oh, the shoppers, Christmas shoppers! How they come, how they go, Spending money that they need! Do they like it? Yes, indeed! For it comes but once a year, And they revel while it's here! —Paul West in St. Louis Globe-Democrat.

BI GRECLAMATION PROJECT PLANNED

Another large reclamation project, which will ultimately reclaim about 85,000 acres of arid land in eastern Utah, is contemplated for the coming spring. The land lies near the border line near the Denver & Rio Grande line. The Grand Valley Fruit & Water company of Denver intends to have about 500 acres under water by planting time next spring. A total of 15,000 acres has been secured from the state through the state land board and it is designated to be about 70,000 acres additional from the government under the Carey project. Application for selection of this land will be made in the near future, it is understood.

The water to be used next spring will be secured by means of a storage reservoir to take care of the flood waters of several small streams in that vicinity. Later this storage water will be used for motive power, which will raise the water from the Grand river.

In Massachusetts a minimum wage law has been recommended by a state commission created to investigate it.

It takes a genius to play the fool and make it pay.
